isWordCount	When isWordCount is set true, only **count and display** words inside of this textarea.

- **Step Three: Add plugin into your document ready jQuery function**

```
1.   <script type="text/javascript">
2.     $(document).ready(function(){
3.        var options = {
4.              'maxCharacterSize': 200,
5.              'textFontSize': '12px',
6.              'textColor': '#5C2306',
7.              'textFamily': 'Tahoma,sans-serif',
8.              'textAlign': 'right',
9.              'warningColor': '#CC3300',
10.             'warningNumber': 40,
11.             'isCharacterCount': true,
12.             'isWordCount': false
13.        };
14.        $('#textTextArea').textareaCount(options);
15.    });
16. </script>
```
